

**FULLERTON SCHOOL DISTRICT  
GOVERNING BOARD MEMBER**

**RALPH G. BAKER**

**OCCUPATION:** Student, CSUF

I became a resident of California in 1955 and got involved in politics in 1971. I became a resident of Fullerton in 1988 and started attending the meetings of the Fullerton City Council in 1998.

I am a candidate for the school board because I am not satisfied with our education system. For years taxpayers have had to pay two dollars in taxes to get one dollar of education.

A vote for Baker is a vote for basic education that will give students the English and math skills that they need. A vote for Baker is a vote for the taxpayers. I will tell the teachers union that if the taxpayer does not win then their union does not win.

A vote for Baker is a vote against the pro-abortion groups. They have been trying to force our board to send girls from our schools to abortion clinics with out the knowledge and consent of their parents. I want your tax money to educate your children not pay a huge lawsuit because a girl died in a clinic.

A vote for Baker is vote for the Excellence in Education Program that will make Fullerton the education community that you want.
